Dimasport equips the largest sporting events and meetings with its IAAF-compliant equipment and its certified top-level competition products.

World Athletics (formerly IAAF) certified items can easily be identified by the  and their references are marked in blue [Ref.13288](#).

Concerning the landing areas (Pole Vault and High Jump), the levels of classification are indicated as follows :

- ◆ Compliant with FFA and International rules 
- ◆ Compliant with FFA and International rules   
(such as Worldwide championships, IAAF meetings and Olympic games)

Tested by a laboratory, all our landing systems are NF-EN 12503-2 type 11 certified, in accordance with the federal competition rules.

# DIMA WEBSITE

FIND ALL PRODUCT DETAILS, PRICES, PLANS AND CERTIFICATIONS ON [DIMASPORT.FR](http://DIMASPORT.FR)

Look for a product with its name or reference

The screenshot shows the DIMASPORT website interface. At the top, there is a navigation bar with the DIMASPORT logo and the tagline 'EQUIPEMENTS SPORTIFS'. Below the navigation bar, there is a search bar with a magnifying glass icon. The main content area displays a product page for 'MATELAS PERCHE INTERNATIONAL MODULAIRE 8.00 X 6.00 X 0.87/0.47 M'. The product image shows a blue and red mat. To the right of the image, there is a list of product details: 'FICHE PRODUIT (AVEC PRIX)', 'FICHE PRODUIT (SANS PRIX)', 'CERTIFICATION', 'DIMENSIONS HORS TOUT', 'PLAN D'ENVIRONNEMENT DU PRODUIT', and 'PLAN DE MONTAGE'. Below the product image, there is a price tag of '15 480,00 € TTC' and two buttons: 'AJOUTER AU PANIER' and 'AJOUTER AU DEVIS'. At the bottom of the page, there are sections for 'PRODUITS SIMILAIRES' and 'PRODUITS COMPLÉMENTAIRES'.

## Competition Info.

- Performance indicator cart: 1 per competition
  - Electronic countdown clock: 1 per competition
  - Wind gauge: 1 per track and competition (long jump & triple jump)
- Equipment desirable but not mandatory.**

## INDOOR CAGE PLAN

# MADE TO MEASURE

Designer, manufacturer and distributor for more than 50 years, Dimasport puts its experience at your service. Passionate and committed to the sport and athlete world, Dima manufacture in France the custom-made equipment you need.

Thanks to our engineering team, we can assist you and carry out your project.

**YOU HAVE AN IDEA OR HAVE A SPECIFIC NEED,  
DO NOT HESITATE TO CONTACT US!**

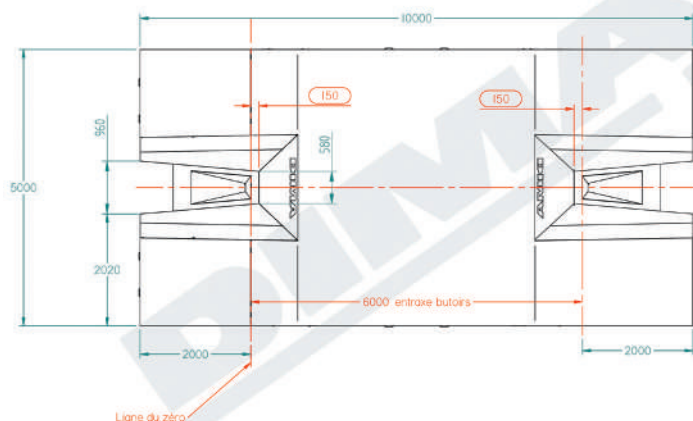

☎ 00 33 1 64 40 05 70 @ info@dimasport.fr

Custom made finish protection pad jumping module

Made to measure

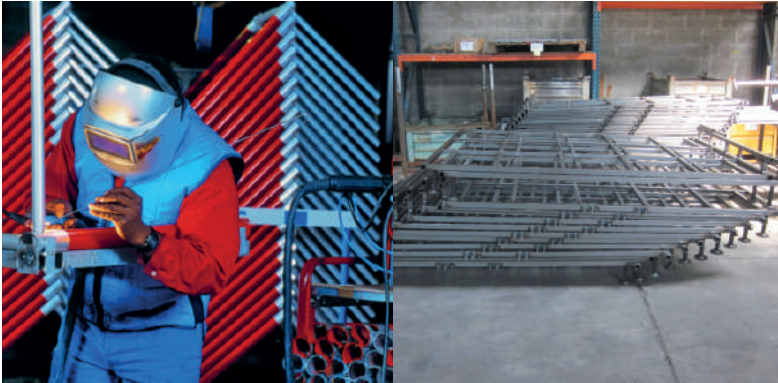

Vault box interaxial adapted double-front landing system

Portable raised running track:  
Raised with the requested inclination

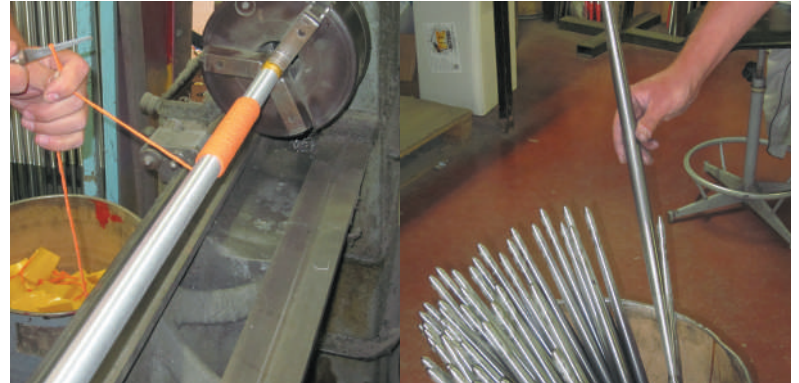

# MADE IN FRANCE

We manufacture our products in our own factories  
in Ozoir-la-Ferriere near Paris.

## METALWORK

We cut, drill and weld the steel ourselves.  
Every production stage is rigorously controlled.

## Atelier Obol

Dima also makes throwing implements: discusses, hammers  
and javelins are manufactured in our factory.

Dima is the only French company to make its own throwing implements.

## TARPAULINS

For over 50 years, we have been constantly improving our processing  
methods to offer top-quality products.

## RAW MATERIALS

Our foams are of the highest  
quality and we know their composition.

Our canvases are inspected and certified.

We select our steels carefully and we know  
where they come from.

We require unremittingly high standards from our suppliers, because the quality of our raw materials largely guarantees the quality of our products. Foam is a costly but fundamental component in our products; we are constantly attentive to its quality and make no compromises.

# POLE-VAULT REGULATIONS

## F.F.A & I.A.A.F LEVEL 1

- **LANDING SYSTEM:**  
Minimum dimensions of 5.00 x 5.00 x 0.80m (not including front extensions)
- **FRONT EXTENSIONS:**  
Minimum length of 2 m  
Overall dimensions: 7.00 x 5.00 x 0.80m

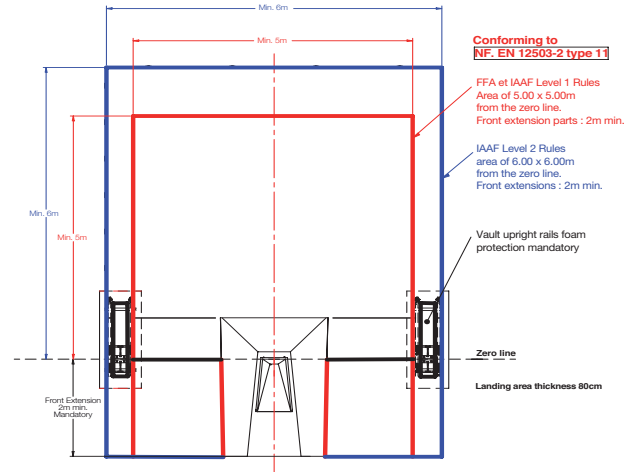

## I.A.A.F LEVEL 2

(World Championships, Olympic Games)

- **LANDING SYSTEM:**  
Minimum dimensions of 6.00 x 6.00 x 0.80m (not including front extensions)
- **FRONT EXTENSIONS:**  
Minimum length of 2 m  
Overall dimensions: 8.00 x 6.00 x 0.80m

Tested in laboratory conditions, our landing systems conform to **NF EN 12503-2 type 11** standards, as required by federation rules.

Regulations at all levels (F.F.A & I.A.A.F) require "protection of pole-vault uprights bases using padding made from the appropriate materials"

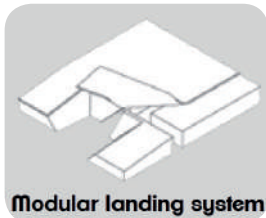

### See pole-vault standard base pad p. 7

The white "zero line" is shown ON ALL DIMA LANDING SYSTEMS in compliance with F.F.A & I.A.A.F regulations.

## TO HELP YOU CHOOSE!

### 1 Select your type of landing system

3 Various landing system designs are offered to you, for optimum suitability: quality/price/functionality

#### 1. MODULAR SYSTEM

Composition: Airfoam units individually encased, lockable, interchangeable and transportable, covered with a 7 or 10cm thick anti-spike top pad, for a uniform, comfortable and flexible landing system.

#### Advantages

- Good level of comfort
- Reversible blocks assembly for longer life
- Allows for easier assembly, moving, and storage (for pole vaulting landing systems, rapid moving of the blocks if the wind changes).

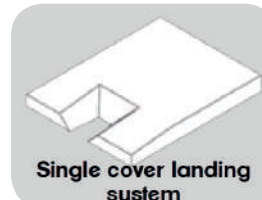

#### 2. COMFORT PLUS SINGLE COVER LANDING SYSTEM

Composition: Airfoam units encased in a single cover, covered with a 7 or 10cm thick anti-spike top pad, for great comfort and flexibility.

#### Advantages

- Very good quality/price balance.

#### 3. SINGLE COVER LANDING SYSTEM

Composition: Airfoam units encased in a single cover, with the top surface made of anti-spike fabric.

#### Advantages

- Price

### 2 Shed options

Shed for security and care (see all sheds on pages 6 to 7).

# HIGH JUMP REGULATIONS

## F.F.A & I.A.A.F LEVEL 1

- **LANDING SYSTEM:**  
Minimum dimensions of 5.00 x 3.00 x 0.70m

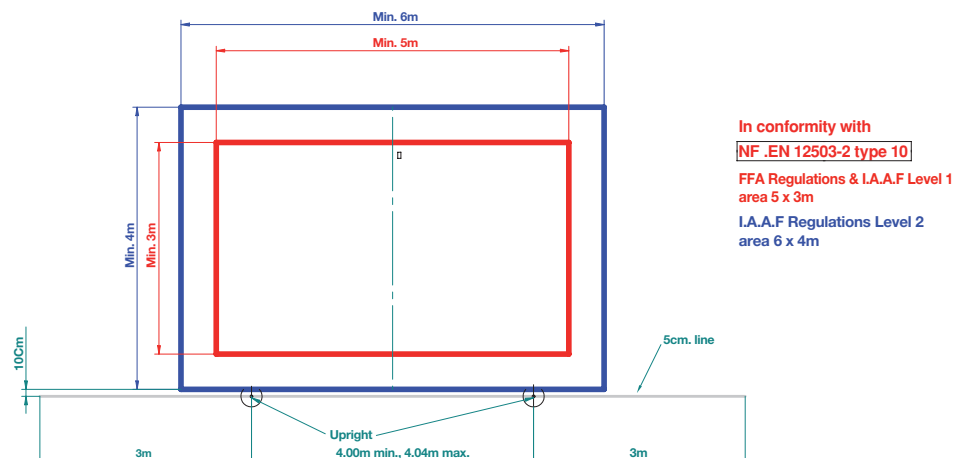

## I.A.A.F LEVEL 2

(World Championships, Olympic Games)

- **LANDING SYSTEM:**  
Minimum dimensions of 6.00 x 4.00 x 0.70m

Tested in laboratory conditions, our landing systems conform to **NF EN 12503-2 type 11** standards, as required by federation rules.

In conformity with **NF .EN 12503-2 type 10**
