DIMA

Motor skills and infant agility

KID

WWW.DIMASPORT.FR

DIMASPORT has been designing sports equipment for almost **60 years**, specialising in athletics, gymnastics and equipment for young children through its DIMAKID brand.

DIMAKID offers **a range of sports products** specifically adapted to the motor skills and physiological capabilities of children aged 0-12: DIMAKID meets their needs in terms of motor skills, stimulation, learning and personal achievement.

As a French manufacturer of sports equipment, it is **our responsibility** to guarantee **the quality, reliability and safety** of the products we offer. Working in close collaboration with **early learning & childcare professionals**, our products are tested, **validated** and selected to provide children with products that meet all your needs.

DIMASPORT - designer & manufacturer

We design and manufacture all our equipment in our metalwork and sewing workshops in the Paris region. Spread over three factories, our sophisticated production facilities and expertise enable us to offer you the highest quality products and services at the best possible price.

DIMAKID on www.dimasport.fr/Dimakid

You can find the full range of DIMAKID products, place an order and much more at www.dimasport.fr/Dimakid

DIMASPORT = safety

To guarantee user safety and manufacturing quality, our gymnastic landing products (mats, mattresses, etc.) are tested and certified by independent laboratories and are in full compliance with NF EN 12503 standards.

**5 - year
guarantee**

Gym mat range

In compliance with the NF En 12503 standard. Ideal for training and intensive use.

Made from shock-absorbing foam, covered with 1000 denier leather grain, with 1/3 puncture-proof fabric around the entire perimeter and 2/3 650 g PVC fabric, for a better landing and lasting durability, with a non-slip underside. The carrying handles (tear-resistant straps) are sewn into the body, making them much stronger and eliminating the risk of them being torn off. Removable cover with zip fasteners on 3 sides. Dima offers you products made with the highest quality materials and unparalleled expertise (reinforced seams, extra strong handles, 1/3 puncture-proof perimeter, which means more work for us but better quality for you).

Learning to walk

Walk & balance

Children can climb steps, support themselves on the low walls, stand up straight and enjoy the experience of standing on their own two feet. This module helps children learn to walk in complete safety. It is available in two sizes to fit in even the smallest of spaces. Made from 24 kg/m³ foam.

KB025000 Small space module A 144 x 60 x 48 cm

KB025100 Large space module B 240 x 100 x 60 cm

All our obstacle courses are **phthalate-free**,
solvent-free, extremely hard-wearing,
easy to wash with soapy water &
suitable for intensive use.
Non-slip underside.

Learning to walk

Our dominoes are **phthalate-free**, **solvent-free**, extremely hard-wearing, easy to wash with soapy water & suitable for intensive use.

Non-slip underside.

Will it be a balance obstacle course act or a tightrope walk?

Walk, balance, hop, jump and stand still

Children will have great fun playing with these giant dominoes. They simply line them up to create a fun obstacle course to test their balance. Each course is different: the shape and colour of the dominoes change each time you play. Once they've mastered walking, children can step over or jump onto the colours of their choice. These non-slip dominoes (36 x 18 x 5 cm) are made from 5 cm thick foam. They come in a clear, phthalate-free carrying case that doubles as a comfortable bench.

Play areas and foam protection

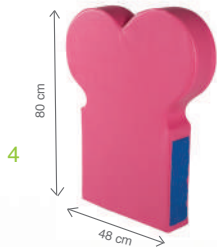

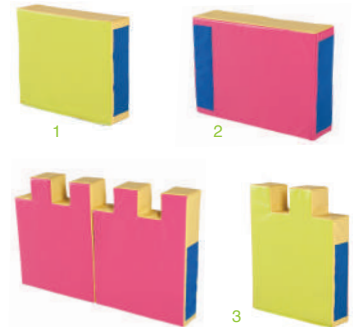

Heart castle play area

Crawl, roll, rest, listen & watch

This play area is designed to create a safe playing environment for young children. The parapets can be used as wall protectors and can be arranged in a variety of ways to create spaces that suit both your needs and the ages of the children. The play areas can be fully enclosed for smaller children or open and adapted by older children, who will love creating their own space with the help of an adult. Each parapet can be attached to the next with Velcro, whether it's the heart-shaped parapet, the castle-shaped parapet or the corner parapet. We can also add Velcro strips to the back of the parapets for permanent use against the wall - All you have to do is ask! Available in pistachio green or raspberry. Made from 24 kg/m³ foam. Non-slip underside.

Balance and coordination 0-6 years

Set of 6 stepping stones

These stepping stones of different heights help children develop their muscular coordination and sense of balance through play. Each stone has a rubber base to prevent slipping and to protect indoor floor surfaces. Helps to improve control, coordination of movement, visual judgement of distances and overall balance. The stones can be stacked for easy storage. Game ideas included. Maximum load: 75 kg

KBG2120 6 stepping stones in 6 colours:
3 large stones - 36 x 36 x 8.5 cm
3 small stones - 25 x 25 x 4.5 cm

Set of 5 hilltop balance stepping stones

Five "hilltop" balance stepping stones of different heights to encourage children to jump from one to the next. Helps children develop their visual sense of distance and gets them used to different heights. Fitted with non-slip pads to protect indoor floor surfaces. Specially designed to prevent them from tipping over. Game ideas included.

Maximum load: 75 kg

KBG2121 Set of 5 hilltop balance stepping stones,
3 different heights
36 x 36 x 8.5 cm
40.5 x 40.5 x 17 cm
42 x 42 x 25.5 cm

Balance hemispheres

Plastic hemispheres that challenge children's sense of balance. Children can try walking on either the flat side or the rounded side of the hemispheres. They are filled with sand to prevent them from slipping. They are also moisture resistant and can be left outside. The hemispheres are fitted with non-slip rubber pads. Available in sets of 6 coloured hemispheres: red, blue and yellow, in pairs.

KBG2128 Set of 6 coloured hemispheres: Ø 15 – 7 cm

You can find and order all the items in our
DIMAKID catalogue on our website

Set of 3 pairs of stilts

To help children develop their sense of balance, these hemisphere stilts with non-slip rubber pads naturally adapt to your child's walking movements.
Colours: red, yellow and blue.

KBG2119 Set of 3 pairs: Ø 15 – 7 cm

KBG2166

+1 year

The river

The river allows children to create an endless number of balancing obstacle courses! The flexible elements are easy to assemble and the shape of the “river” depends entirely on the imagination of those who play with it. Made from strong plastic with non-slip rubber pads, the river combines high quality with an attractive design. Maximum load: 75 kg

KBG2123 Set of 6 river elements (in 6 colours) 35.5 x 11.5 x 4.5 cm
+ 1 linking element - 15.5 x 8.5 x 4.5 cm

KBG2166 25-piece river set: 3 rivers, 2 islands and 2 bridges

KBG2123

10-piece build & balance course

An exciting and challenging balance course. The elements can be combined in a myriad of ways, so the sky is the limit when it comes to creating different courses and layouts. Thanks to its great flexibility, the level of difficulty can be adapted to children's abilities and the height of the course can be adjusted from 10 to 24 cm, depending on how brave they are feeling!

KBG2229 Set includes 2 yellow tops - Ø 27 x 10 cm,
3 red tops - Ø 40 x 24 cm,
and 5 blue planks - 720 x 13 x 3 cm

10-piece tactile disc mobility course

A fun design that challenges children's sense of touch with their hands and feet. It teaches children to use language to describe their sensory perceptions. The tactile discs have five different patterns in a range of colours. Made from artificial rubber, they are hard-wearing and fun to touch. The tactile elements come in the form of a large disc to be placed on the floor and a small disc to be held in the hand. There are plenty of ways to play, from the basic perception of tactile patterns to blindfolded memory games. The games can be adapted to suit the age and motor skills of each child. This set includes 5 large plates, 5 small plates, a blindfold and a fabric bag.

KBG2117

Set including 5 large plates,
5 small plates, a blindfold and
a fabric bag. Max. weight: 100 kg
Ø 27 cm & 11 cm

Clown hat

The clown hat encourages children to play and learn balance at the same time, because it's not always easy to keep your balance with something on your head! You need concentration and balance to wear it. Helps develop body awareness and attention to posture. The parts are soft so they won't hurt if they fall.

KBG2127

5 parts made from synthetic rubber and EVA foam. Ø 14.5 x 18 cm

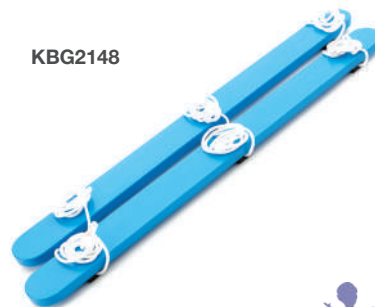

Summer skis

Fun summer skiing for children. It may look easy, but it can be quite difficult to move in time. Summer skiing develops motor skills that involve coordinating different movements. The skis are made of wood with a non-slip rubber coating to protect the floor when the skis are used indoors.

KBG2148 104 cm summer skis for 3 children

KBG2148

Go Go pedal racer

Go Go is a fun, challenging and safe toy for children. Children need to use their coordination and balance to get around while pedalling. The Go Go pedal racer combines design and strength, with plastic wheels and pedals, steel axles (\varnothing 14 mm) and rubber tyres. Maximum load: 50 kg.

KBG2138 48 x 36 x 16 cm

KBG2138

Go Go Bus with handles

Strong, smart and so much fun. It helps develop mobility and balance. Working in pairs or groups of three, children need to be able to coordinate their movements. With plastic wheels, rubber tyres, steel-reinforced pedals and a steel axle (\varnothing 14 mm). Maximum load: 90 kg. Steel handles (\varnothing 12 mm) covered with reinforced foam (\varnothing 30 mm).

KBG213X 53 x 48 x 45 cm

Giant foam puzzle

Encourage children to play with large volumes and put all 10 fingers to the test!

Each cube measures 24 x 24 x 24 cm and can be used as a pouf. The designs are sewn individually in multicoloured thread. The giant foam puzzle blocks are packaged in a clear, phthalate-free case. Features a handle for easy storage.

Let's get building! Build a structure then knock it down! Young builders can experiment with life-size constructions using their bodies. Put their hands to the test to create gigantic structures. Children will use their entire bodies to build, stack and arrange these large foam cubes to create a house, a snake, a heart, a path, a town or even a castle wall. This foam cube construction game is great for individual and group play and helps children develop and socialise.

Giant Spinning Top

Swing, sway, spin or make a den

This wonderful giant spinning top will keep children entertained for hours! Helps develop coordination and motor skills. Made from moulded high strength plastic, suitable for indoor and outdoor play. The four raised sections prevent children's fingers from being crushed or trapped under the edge. They also prevent the risk of suffocation when children hide under the upside-down spinning top.

Dimahopscotch

Jump, throw, hop and balance.

If you want to play hopscotch, you have to draw it with chalk or trace it with a stick on the sand. But at nursery school, it's much easier to play with Dimahopscotch. Made up of 9 modules, it can be set up in a flash and packed away just as easily! Made from high density, high performance foam. Extremely hard-wearing fabric, easy to wash with soap and water and suitable for intensive use. Flame retardant - M2. Non-slip underside. Overall footprint: 220 cm x 60 cm. Dimensions when folded: 60 x 40 x 27 cm.

Uni-hockey rink

This hockey rink requires each participant to have the same skills as real hockey players. Each player has a defensive and offensive role, alternating between goalkeeper and striker. Consists of 5 different coloured boards measuring 1.83 x 0.25 m, held together by a fastening system, each with three 13 x 15 cm holes. Overall footprint: Ø 3.12 m

- HOCK500** Hockey rink Ø 3.12 m

Hockey rink Ø 3.12 m

Tchoukball

Two teams of 7 players go head-to-head, trying to score as many points as possible.

- A point is scored when a player throws the ball on the inclined trampoline and it touches the ground outside the semi-circle, but inside the court, before a player from the other team can retrieve it.
- A player gives a point to the opposing team if he or she misses the trampoline frame, or if the ball bounces out of bounds before or after the shot (bearing in mind that the trampoline is located out of bounds - at the end of the court).
- Each team can score points on either trampoline.

BASIC RULES:

- 1 x 16 x 32 m court and a handball.
- 2 teams of 7 players.
- 2 tchoukball frames (inclined trampolines) positioned at each end of the court.

TCHOUK20

Kit containing:

- 2 frames (trampolines)
- 5 handballs
- 7 yellow bibs
- 7 red bibs
- 1 carrying bag for balls and bibs

INNOVATING IN TABLE TENNIS

FFTT
Fédération Française
de Tennis de Table

Circus activities give children the opportunity to broaden their experiences, get to know themselves better and develop their physical skills. Children learn to adjust and adapt their actions, thanks to a wide range of sensations and emotions that make it fun to learn and play in a group.

Juggling is all about rhythm: throwing, tossing, catching, stopping, releasing...

A whole range of movements that allow everyone to express their sensitivity and skills in an individual or collective performance.

Multi-seater strollers

Kiddy bus deluxe 4-seater stroller

The Kiddy Bus has been designed with ergonomic movement in mind: made from plastic and aluminium, it is extremely lightweight and easy to push, and the front wheels can move in all directions. Try it, you'll love it!

Children are seated in pairs, facing each other.

The side door provides easy access so adults don't have to lift children in and out of the stroller.

Equipped with straps on the sides for children to hold on to when walking alongside the stroller.

The Kiddy Bus stroller is designed for 4 children aged between 6 months and 4 years (maximum 15 kg).

Access step height: 22 cm

Dimensions: Length: 155 cm x Width: 75 cm x Height: 100 cm

Maximum load: 70 kg

Net weight: 40 kg

Sitting and resting

Flower-shaped reading pouf set

Ideal for creating a reading space for young children.

Includes 6 poufs for children and 1 pouf for adults.

The poufs attach to each other with Velcro, so you can store them and keep them together in a flower-shaped arrangement.

Dimensions (flower): Ø 1.15 m

Child's pouf: Height: 20cm - Length: 38cm - Width: 21/42cm

Adult's pouf: Height: 40cm - Ø: 38cm

Technical specifications:

Made from 24kg/m³ polyurethane foam. Upholstered in a highly resistant fabric (in accordance with Directive 2005/84/EC on toys and childcare articles, M2 flame retardant, phthalate-free, solvent-free, & does not emit VOCs into the atmosphere). Non-slip underside.

KB020500

Tipi

Consists of 3 triangular panels made from foam and fabric, joined together with Velcro. Easy to set up and fold away. Fabric base. Can be used outdoors.

Lay the panels flat and join them together to create an activity mat.

Dimensions:

Height: 1.35 m - Ø 1.25 m

Very strong and safe, this tipi is made from firm foam and upholstered in a highly resistant fabric (in accordance with Directive 2005/84/EC on toys and childcare articles, M2 flame retardant, phthalate-free, solvent-free, & does not emit VOCs into the atmosphere).

KB020100

Gingerbread man

The Gingerbread Man (made from 24kg/m³ foam) is both a foam wall protector and an ultra-stable bench with a rounded shape that offers a warm welcome to children looking for a place to rest. The benches can be clipped in at 45 degrees or along the wall - Gingerbread man gymnastic splits version. His body can be attached to the wall with Velcro.

KB001102 Gingerbread man - benches at 45 degrees - 205 x 90 x 96 cm

KB001202 Gingerbread man gymnastic splits - 190 x 30 x 96 cm

Corner steps

Fits in the corner of the room. Make the most of the space available. Little ones will love climbing it! The largest step (at the base) measures 140 x 140 cm and has a seat height of 2 metres. The other steps are 15 cm high. That's 5 metres of seating for a 140 x 140 cm corner.

KB051800 140 x 140 x 60 cm

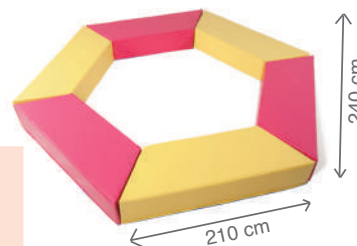

Hexagonal bench

Made from 24 kg/m³ foam. Can be assembled in a hexagon or a straight line thanks to the Velcro fasteners

KB051605 Raspberry 120 x 38 x 21 cm

KB051602 Golden Yellow 120 x 38 x 21 cm

KB951600 Set of 6 Hexagon Benches 240 x 210 x 21 cm

Sitting and resting

Foam table

Build, stack, assemble, create, watch, organise & learn

Made of polyethylene foam on a wooden panel. Steel feet.

2 versions: with or without fabric insert. The fabric insert in the middle is divided into compartments. The removable fabric insert is phthalate-free and fully washable.

Complies with the European standard NF EN 1729-1. The photo shows the table with bicoloured oval poufs (sold on page 164)

KB951202	Foam table - golden yellow/apricot orange - with fabric insert (photo)	110 x 110 x 40 cm
KB051203	Foam table - apricot orange	110 x 110 x 40 cm

Mister piggy

An essential companion for little ones, Mister piggy is easy to transport and store against the wall thanks to its castor wheels.

Includes 12 cushions for children, Ø 35 cm x 4 cm, and a pouf for adults, Ø 35 cm x 35 cm.

Sit back and enjoy the story.

KB052005	Painted aluminium stand - 107 x 35 x 57 cm
-----------------	--
