More quality

Dima is an advocate of rigorous manufacturing processes which **reinforce the quality** of our products (handles stitched into the thickness, reinforcing straps on seams of folding mattresses, high-density foam, etc.).

More ideas

Dima, at the cutting edge of innovation, regularly brings out **new products**.

More savings

Dima helps you to **benefit from savings** in terms of packaging and handling with our different variety packs. In addition, the quality of our products means that you won't have to renew them as often.

More guarantee

If Dima is the only company to offer you a **5-year guarantee**, it's not just by chance!

DIMASPORT

AND SUSTAINABLE DEVELOPMENT

«Sustainable Development is development which meets the needs of the present without compromising the ability of future generations to meet their own needs.»

(United Nations World Commission on Environment and Development).

At Dimasport, we have pledged to change our work methods and organisation as necessary to enable better management the planet's natural resources. We work with responsible suppliers (Certipur certification, ISO 14001).

We choose products which have the least impact on the environment and working conditions: raw materials controlled by REACH, solvent-free inks and varnishes, phthalate-free and hazardous product-free mats and mattresses for small children, etc.

DIMASPORT, A RESPONSIBLE MANUFACTURER

- An eco-responsible approach
- Waste management (recycling of foam waste)
- Optimisation of raw materials with low-waste processes (since we are manufacturers)
- Optimisation of transport (since we manage our own deliveries)
- Optimisation of packaging.

DIMASPORT

SPORTS EQUIPMENT

WHAT TO DO WITH...

As a company which is always close to the needs of its customers, Dimasport has decided to provide answers to a question asked by a great many users, leaders, teachers and trainers:

HOW TO GET THE MOST OUT OF THE EQUIPMENT AND WHAT TO DO WITH IT

We therefore called on the expertise of a leading specialist in sports agility and skills to help us in this task.

JACQUES PIASENTA

The French athletics trainer with the most titles, and a teacher above all.

His objective is to **facilitate the development of motor capabilities and skills** whatever the discipline, age or proficiency level of the athlete or child.

We considered it fitting and natural for the leading manufacturer and creator of sports equipment team up with **an enthusiast of technique and an unbridled inventor of "exercises"** in order to **optimise, offer up new ideas and enable the easy and versatile use of some of our products.**

We have therefore developed

DIMA'S "What to do with..." Factsheets

These factsheets, presented like cookery recipes, will help to make equipment use easier by recommending suitable exercises.

In the perspective of helping you in your educational approach, we have inserted a selection of these factsheets in this catalogue.

You can find more on our web site www.dimasport.fr (in French).

DIMASPORT

SPORTS EQUIPMENT

MANUFACTURER

WE MANUFACTURE OUR PRODUCTS IN OUR FACTORIES NEAR PARIS

METALWORK

We cut, drill and weld the steel ourselves.
Every production stage is rigorously controlled.

TARPAULINS

For almost 60 years, we have been constantly improving our processing methods to offer top-quality products.

RAW MATERIALS

Our foams are of the highest quality and we know their composition.

Our canvases are inspected and certified.

We select our steels carefully and we know where they come from.

We require unremittingly high standards from our suppliers, because the quality of our raw materials largely guarantees the quality of our products.

Foam is a costly but fundamental component in our products; we are constantly attentive to its quality and make no compromises.

**RESPONSIBLE FOR PRODUCTION
TO FULFIL YOUR SATISFACTION
TOTAL COMMITMENT FROM DIMA**

CREATOR

CLOSE TO GRASS-ROOTS NEEDS, WE REMAIN ATTENTIVE TO YOUR REQUIREMENTS AND REGULARLY BRING OUT NEW PRODUCTS.

Dima is the proud inventor of the pedagogym range (1980) free-standing apparatus (for the UNSS games in 1981) and gymnastics tracks (to make up floor exercise surfaces, created for the UNSS games in 1976).

In this section, you will find more new product ranges.

13190	Mat winder with mandrel
13195	Roll-up track's transport trolley 210 x 68 x 53cm

COMPACT STORAGE TRACK

Specifically designed to reduce storage requirements, this scalable and foldable track offers you excellent flexibility. Entirely foldaway into 50cm-wide strips, it takes up very little storage space. Its width and non-slip underside can help to create extensive exercise areas, bringing you greater safety. For even safer use, the ends have red edging..

Ref.	Product description
23760	1000 x 100 x 5cm (folded size: 100 x 50 x 100cm)
23761	1200 x 200 x 5cm (folded size: 200 x 50 x 60cm)

GYMNASTICS

- Compliant with safety standard NF EN 12503
- High quality polyurethane foam covered with 1000 denier flame-retardant M2 certified Tergal fabric.
- Leather grain finish and non-slip underside and an **air-escape grid all around the mattress** for a softer landing and recovery; made from 650g PVC.
- Removable cover with zip fastening on 3 sides.

Non-tear handles with 8 stitch points into the thickness of the mattress, allowing for easier transportation.

DIMASPORT

SPORTS EQUIPMENT

MANUFACTURER

WE MANUFACTURE OUR PRODUCTS IN OUR FACTORIES NEAR PARIS.

METALWORK

We cut, drill and weld the steel ourselves.
Every production stage is rigorously controlled.

OBOL WORKSHOP

Dima also makes throwing implements: discusses, hammers and javelins are manufactured in our factory.

TARPAULINS

For almost 60 years, we have been constantly improving our processing methods to offer top-quality products.

Dima is the only French company to make its own throwing implements.

RAW MATERIALS

Our foams are of the highest quality and we know their composition.

Our canvases are inspected and certified.

We select our steels carefully and we know where they come from.

We require unrelentingly high standards from our suppliers, because the quality of our raw materials largely guarantees the quality of our products.

Foam is a costly but fundamental component in our products; we are constantly attentive to its quality and make no compromises.

RESPONSIBLE FOR PRODUCTION,
TO FULFIL **YOUR SATISFACTION**
TOTAL COMMITMENT FROM DIMA

DIMA, INVENTOR OF SPORTS EQUIPMENT

CREATOR

CLOSE TO GRASS-ROOTS NEEDS, WE REMAIN ATTENTIVE TO YOUR REQUIREMENTS AND REGULARLY BRING OUT NEW PRODUCTS.

The inventors of the folding high jump landing system, with in particular the now renowned platform mounted foldaway (created in 1975), inventor of school PE hurdles (created in 1975), etc.

In this section you will discover even more new products.

CASE OF 24 DIGI DT1 STOPWATCHES

A set of 24 DIGI stopwatches supplied in a sturdy red case certified DIGI SPORT INSTRUMENTS with foam compartments for safe and tidy storage. Measurements: 330 x 240 x 80 mm DT1 stopwatch product features: 12 or 24 hour format (h, min, sec), Accurate to 1/100th second with split times, date and alarm, push button controls, splash-proof.

Ref.	Product description
15525	Set of 24 DIGI DT1 stopwatches

BASIC STOPWATCH

Simple time + addition, Split time, Capacity: 24h to 1/100th second up to 30 minutes, Calendar / Alarm / Clock, Measurements 80 x 57 x 24 mm / 80 g - Battery 357 / battery protector tab.

Ref.	Product description
15534	Basic stopwatch

MULTI-FUNCTIONAL STOPWATCH

Accurate to 1/100th second. (up to 30 minutes), 1 display line, single timings, alarm, start/stop buzzer, time/ calendar.

Ref.	Product description
15521	Multi-Functional stopwatch

COACH STOPWATCH

10 hour timing to 1/100th second, 60 timings / Split or Lap, memory of Split or Lap times, simple timer up to 10 hours to the second, indication of number of cycles, repeatable up to 199 times, audible or silent start and stop, thermometer, 12 or 24 hour clock, calendar, alarm (wake-up) for 30 seconds, backlighting 5 seconds, waterproof to 1 ATM (splash-proof).

Ref.	Product description
15532	Coach stopwatch

TRAINER STOPWATCH

Practical and accurate to 1/100th second (up to 30 minutes), 2 display lines, 20 timings memory, single timings, stats, splits (intermediate times), laps (lap by lap), Countdowns, 24 hour capability, alarm.

Ref.	Product description
15522	Trainer stopwatch

MAJOR STADIUM STOPWATCH

Accurate to 1/100th second. (up to 30 minutes), 3 display lines, 100 timings memory, single timings, timings addition, splits, stats, laps, lap counter, calendar, alarm. Watertight.

Ref.	Product description
15523	Major Stadium stopwatch

PRO SOLAR STOPWATCH

10 hour timing to 1/100th second, 30 timings / Split or Lap, simple timer up to 10 hours to the second / beep for last five seconds, indication of number of cycles, repeatable up to 99 times, audible or silent operation (except countdown timer) time statistics: longest, shortest, average, temperature / humidity / dew point / heat index, 12/24 hour clock, calendar, alarm (wake-up) for 30 seconds, backlighting 5 seconds, ABS shockproof casing, waterproof to 1 ATM (temporary surface immersion), powered by solar cells.

Ref.	Product description

Ref 10511

WHISTLES

Ref.	Product description
10510	Set of 3 plastic whistles with lanyard
10511	Hygienic handheld whistle. Sold by the unit.

START CLAPPER BOARD

Made of two wooden arms with handles and two semicircles coloured white and red.

Ref.	Product description
10500	Start clapper board

Ref 10181

Ref 10180

RELAY BATONS

Set of 6 PVC relay batons (diameter 39mm, length 29.5cm)

Ref.	Product description
10181	Set of 6 Plastic Batons - ø 39mm. Length 29.5cm
10180	Set of 4 Aluminium Batons - ø 38.5 mm. Length 29.5cm - Approved.

VINYL TAPE

Usable indoors and outdoors to mark play and work areas. Can be cut to make stride indicators.

Ref.	Product description
10373	Vinyl Tape 10 m
10374	Vinyl Tape 20 m

AGILITY LADDER

Allows for organisation of space and the programming of rhythm exercises. Flexible spacing. Very easy to position. Lightweight and easy to use. Made from anti-slip rubber. Rung lengths 43 cm. Supplied with free storage bag.

Ref.	Product description
10381	12m agility ladder

HOOP LADDER

Running, jumping, the hoop ladder facilitates the organisation of space and plan rhythm exercises. Comprising 12 flat hoops of 50 cm diameter. Delivered with free storage bag.

Ref.	Product description
K5205	Hoop ladder

AGILITY HOOP LADDER

Comprised of 8 x 60 cm. rods, 12 x 60 cm diameter round hoops and 12 clips. Delivered with a free storage bag.

Ref.	Product description
K5206	Agility hoop ladder

METRIC TAPE

In unwoven fabric. Very light and easy to position. 17 cm wide. Markings every 20 cm.

Ref.	Product description
10390	20 m Tape
10395	50 m Tape

STRIDE INDICATOR

Aimed at working on rhythm by placing the bands at regular intervals according to athlete's stride. Made of anti-skid rubber. Colour-marked both sides, 42,5 x 3,5 cm

Ref.	Product description
10372	Set of 20 stride indicators

FOOT SPEED LADDER

Length: 8.50 m. Width: 50 cm. Possibility to join up several ladders using an attachment system. Adjustable spacing. Delivered with a free storage bag.

Ref.	Product description
10377	Climbing Ladder

BEGINNER STARTING BLOCKS

Made from hard rubber, ideal for learning starts.

Ref.	Product description
10112	Set of 2 blocks

TRIPOD STARTING BLOCKS

Ideal for athletics coaching associations and schools.

Placed down or fixed (pin) with a handle. Comprised of 3 fixed blocks (1 in front, 2 at the back) covered with a synthetic cover. Very quick to use. No right-hand or left-hand adjustment.

Ref.	Product description
10117	Tripod starting blocks

SCHOOLS STARTING BLOCKS

Ideal for schools and athletics coaching associations. 14 adjustment options.

Ref.	Product description
10113	Schools Starting Blocks

PE STARTING BLOCKS

Lightweight model with a double bar for multiple adjustments. Blocks covered in PVC pads. Fixings for a synthetic or cinder track.

Ref.	Product description
10120	PE Starting Blocks

TRAINING STARTING BLOCKS

Nice-looking model, stable and highly technical. Excellent quality/ price balance.

Central arm in extruded aluminium, very rigid. 16 adjustment markings plus 4 block angle adjustments. PVC pads.

Ref.	Product description
10116	Training Starting Blocks

COMPETITION STARTING BLOCKS

IAAF n° E-02-0340 IAAF Approved and certified.

Nice-looking model, heavy, stable and highly technical. Central arm in extruded aluminium, very rigid. Adjustment possible using markings on a wide rack plus 4 block angle adjustments. Blocks interchangeable with synthetic pads. Fixings for a synthetic or cinder track.

Ref.	Product description
10114	Competition Starting Blocks

SYNTHETIC TRACK ROLL

Black, thickness 12 mm (suitable for points)

Ref.	Product description

TIPS

What to do with...
FOAM HURDLE MATS

Ref 23936, 23941, 23946

HOPPING - JUMPING

Changing (CH)
feet

Doubling (DB)
feet

Run up 5m
max

When the next mat is a different colour, you change your landing foot; when the next mat is the same colour, you land with the same foot as before..
Don't get them to all do the same course. Offer three different-difficulty courses: A, B and C. They can only do C if they get B right.

	CH COURSE			DB COURSE		
	A	B	C	A	B	C
Age 10-12	1 m	1,25 m	1,50 m	0,60 m	0,80 m	1 m
Age 14-15	1,50 m	1,75 m	2 m	1,20 m	1,40 m	1,60 m

Distances expressed are between mat centres.

VARIATIONS

➤ Courses alternating between same-foot (DB) landings and opposite foot (CH) landings

➤ Mastering this will lead to an Olympic triple jump.

FOAM HURDLE MATS

Perfect for learning, this product provides total safety and eliminates any fears. Provided with end velcro strips, the assembly of these mats achieves a very flat surface (like a gym mat surface) for footwork, coordination, or gymnastic exercises. Made from polyurethane foam with PVC cover. Anti-slip underside.

Thickness 4 cm

Ref.	Product description
23936	Set of 4 folding hurdle mats 35 cm - Dim. unfolded: 100 x 70 cm
23941	Set of 4 folding hurdle mats 50 cm - Dim. unfolded: 100 x 100 cm
23946	Set of 4 folding hurdle mats 65 cm - Dim. unfolded: 100 x 130 cm

MINI OBSTACLES

Ideal for track work. Can be piled on top of one another. Polyurethane foam covered in a 1000 denier Tergal fabric. Delivered with a free storage bag.

Ref.	Product description
10345	Set of 8 Red Mini Obstacles 50 x 12 x 12 cm
10346	Set of 8 Yellow Mini Obstacles 50 x 18 x 18 cm

FOAM HURDLES

Ideal for beginners. Stable and totally safe.

Width: 100 cm - Height: 40 cm - Thickness: 7 cm above and 25 cm below.

Ref.	Product description
10340	Foam Hurdles

TIPS

What to do with...
FOAM HURDLE MATS

START RUNNING OBSTACLE RACES

using hurdle mats

For one class, offer three courses, A, B and C, so that each pupil can find the right difficulty level for them.

	Distances Start-1st obstacle			Distances between obstacles			Height of obstacles

							0.76m	0.84m	0.91m

Pupils try the three courses to determine on which one they are capable of completing with 4 steps between each hurdle, and the fastest.

It is interesting to organize races between runners on different courses where the first hurdles of each course are aligned.

For the best athletes, the last Foam Mat obstacle is replaced by a school hurdle or mini-hurdle, to prepare the next step.

ADJUSTABLE GPP FOAM HURDLES

Easy to set up and carry. Perfect for travelling athletes.

Ref.	Product description
10339	Set of 5 hurdles

CROSS-BRACED HURDLES

Lightweight and easy to set up. PVC hurdle boards 100 cm wide. Adjustable height 22 – 106 cm. Delivered with free storage bag.

Ref.	Product description
10239	Set of 6 cross-braces hurdles with bag
10239001	Hurdle board for cross-braced hurdle – sold by unit

BABY HURDLES

Ideal for athletics clubs and introductions to trackwork. Lacquered tubular steel with adjustable heights of 25 – 30 – 35 – 40 – 45 – 50 – 55 and 60 cm. Magnetic PVC hurdle board for enhanced safety.

Ref.	Product description
10235	Set of 3 baby hurdles
10238	Set of 6 baby hurdles
10235002	Set of 5 replacement PVC hurdle boards for baby hurdles

DIMA KID HURDLES

Perfectly suitable for athletics, schools and track work. Laquered steel construction, strong, easy to use and to stack. PVC hurdle boards placed on rubber supports. Delivered with a free storage bag.

Ref.	Product description
10350	Set of 6 Dimakid Hurdles - 20 cm height with Storage Bag
10355	Set of 6 Dimakid Hurdles - 40 cm height with Storage Bag
10360	Mixed set of 6 Dimakid Hurdles (20 & 40 cm) with Storage Bag

FOLDABLE VARIABLE HEIGHT STEP HURDLES

Lightweight and easy to transport due to its flat folding system. Ideal for footwork and trackwork. In tubular PVC. 15 or 30 cm height. Delivered with a free storage bag.

Ref.	Product description
10234	Set of 6 Hurdles with Storage Bag

FOLDABLE PVC TRAINING HURDLES

Lightweight and easy to transport and install. Ideal for indoor training.

Ref.	Product description
10323	Set of 10 - 20 cm height
10324	Set of 10 - 30 cm height
10325	Set of 10 - 40 cm height
10326	Set of 10 - 50 cm height

PVC TRAINING HURDLES

Perfect for beginners. Safe and easy to dismantle.

Ref.	Product description
10331	Set of 3 - Adjustable from 40 to 60 cm
10337	Set of 3 - Adjustable from 55 to 95 cm
10332	Set of 6 - Adjustable from 40 to 60 cm

STEP HURDLES

Supplied with free storage bag. 45 cm width.

Ref.	Product description
10232	Set of 6 - 15 cm height
10233	Set of 6 - 30 cm height
Transportation strap for step hurdles	
10237	Transportation strap

ALUMINIUM AUTO RETURN HURDLES

A hurdle that stands back up on its own, allowing for greater training frequency. Its all-aluminium design makes it an easily-transportable education aid, perfect for teaching schoolchildren indoors or outdoors. Fast adjustment of height using ball and spring system (40, 45, 50, 55 and 60 cm) Width: 1.00 m.

Ref.	Product description
10210	Set of 3 aluminium auto-return hurdles

GPP HURDLES

Perfect for beginners. Adjustable height from 20 to 30 cm. PVC tube and joints. Can be fully dismantled. Lightweight. Width 60 cm.

Ref.	Product description
10333	Set of 3 - height 20-30 cm
10334	Set of 3 - height 40-60 cm

INDOOR RUBBER SHOT

Specifically designed for throwing indoors or on a hard surface. Designed especially for intensive use.

Ref.	Product description
12779	Indoor rubber shot 2 kg
12789	Indoor rubber shot 3 kg
12799	Indoor rubber shot 4 kg
12809	Indoor rubber shot 5 kg
12819	Indoor rubber shot 6 kg
12829	Indoor rubber shot 7.26 kg

CAST IRON SHOT

Perfectly suitable for use in schools and clubs.

Ref.	Product description
12601	Set of 3 - 2 kg
12611	Set of 3 - 3 kg
12621	Set of 3 - 4 kg
12631	Set of 3 - 5 kg
12641	Set of 3 - 6 kg
12651	Set of 3 - 7.26 kg

STEEL SHOT

Officially approved. Balanced and weight-controlled.

Ref.	Product description
12670	2 kg
12680	3 kg
12690	4 kg
12700	5 kg
12710	6 kg
12720	7.260 kg

THROWING AREA

Easy to install and ideal for fun throwing practice. Throwing area in a 1,000 denier PVC fabric, in brilliant colours with metric measurements. Foam end edge to stop the equipment. Throwing circle with a circle mat secured to the throwing area using velcro strips.

Dimensions : 8 x 5 m velcros.

Ref.	Product description
11108	Throwing Area Dimensions: 8 x 5m

SOFT RUBBER SHOT FOR SCHOOLS

Perfectly suited to children because the diameter is adapted to their hands for better acquisition of technique. Made from soft rubber.

Ref.	Product description
12904	1 kg diam 100 mm
12905	1.5 kg diam 100 mm
12906	2 kg diam 110 mm
12907	3 kg diam 120 mm
12908	4 kg diam 125 mm
12909	5 kg diam 135 mm
12910	6 kg diam 140 mm
12911	7.260 kg diam 140 mm

WEIGHTED BALLS

For shot put beginners, both indoors and outdoors. Moulded shape.

The outer plastic cladding is non-slip and very resistant.

75121	Set of 3 throwing rings 400 g
75131	Set of 3 throwing rings 600 g

TIPS

DIMA

What to do with...

A DISCUS AND A JAVELIN

BEFORE BEING ABLE TO THROW A LONG WAY PRACTICE YOUR MANUAL DEXTERITY WITH A DISCUS AND A JAVELIN

With a discus

Standing up, the thrower swings his arm forwards and backwards once, then, on the next forward movement, bends his knees so as to release the discus along the ground, with the index finger being the last in contact with the discus. The technique is identical for left and right-handers... and there's no need to confuse them with clockwise or anticlockwise rotation! Measure the performance by marking the zone in which the discus stops.

With a javelin

► 3 targets made from hoops clipped to poles, with diameters of 0.70m, 0.50 m and 0.35m. The aim is to throw the javelin through the hoops without touching them.

Or

► With run-ups of 5m, 7.50m and 10 m, throw a javelin between 2 poles positioned 0.50m apart..

TIPS

What to do with... A JAVELIN

If there is not enough space to throw far,
THROW HARD AND ACCURATELY

Stab the javelin into the long jump pit in 3 target hoops 5m, 7.50m and 10m away.

THROWING SPORTS REQUIRE STRICT COMPLIANCE WITH SAFETY RULES AND INSTRUCTIONS

To avoid any accidents when the thrower arms the javelin, **the other throwers have to wait** while keeping their javelin vertical and close to their body.

Making the javelin stick in the stand requires strength but also trajectory angle.

Awards points according to whether the target is hit and whether the javelin sticks in the sand.

ATHLETICS

TARPAULIN TARGET FOR THROWING EVENT LANDING AREA – 300 X 100 CM

With colour coded zones for easier identification

Ref.	Product description
70097	Throwing event landing area

VERTICAL TARPALIN TARGET FOR THROWING - 130 X 130 CM

AIRFOAM STRUCTURE HIGH JUMP LANDING SYSTEM

A good compromise for minor competitions, school use and training. Optimal comfort and safe landing for athletes' safety

Certified NF EN 12503.

- Cross-braced airfoam blocks, 24kg density multi-support
- Unique cover with spike-proof surface and air release grid around the perimeter for a softer landing
- Surround and base made from 1000 denier heavy tergal.
- Non-tear polyamide handles with 8-point stitching, placed in the depth of the mattress to allow easy handling.

Blocks interchangeable to extend lifespan

Cross-braced airfoam blocks, 24kg density multi-support, for controlled and comfortable landing.

11581	Telescopic high jump height gauge from 0.85 to 3.00m
11582	Telescopic gauge from 1.80 to 8m

TIPS

What to do with... A POLE

ENJOYING POLE VAULTING

IS POSSIBLE, EVEN
FOR THE YOUNGEST CHILDREN
IN THE GYM OR THE SAND PIT.

2 MISTAKES TO AVOID:

RIGHT HAND AT TOP
means lift off with left leg and body
to the right of the pole. Left hand
at top: right leg lifts off and body
goes to the left of the pole.

The trainer should not pull on
the pole and should merely
attempt to keep it vertical. It is
the pupil's job to push their pole.
This is why it is good idea to
place cones in the sand. In the
gym, use DIMA's vault boxes and
supports.

LONG JUMPING WITH A POLE

IN THE SAND PIT WITH A LEVER

POLE LENGTH
FROM END TO BE PLANTED IN THE
HOOP TO THE UPPER HAND

WELL IDENTIFIED AND FOLLOWED

This fun exercise is a great way of teaching technique, as the jumper always has to stay behind their pole. This is one of the basics of pole vaulting, even at the highest level!

- 1 Knee lift with leg opposite the upper "lead" hand.
- 2 Lever length markers (coloured tape every 20cm for example)
- 3 Bring legs together at knees
- 4 Always push down on pole so as to never pass in front of it!
- 5 Balanced descent - pole on shoulder facing back towards run-up... and then measure the distance.

Perfect for discovery of multi discipline events, specifically devised for schools and clubs.

Contents

1 stopwatch, 1 set of 3 vortex javelins, 1 foot speed ladder, 6 x 35cm cones with holes, 6 x 80cm rods, 1 set of tripod starting blocks, 1 official's clipboard, 1 free sports bag.

70115

LONG JUMP MAT

Ideal for teaching long jump to beginners in total safety. Foldable in two for easy storage. Made from polyethylene foam. Special non-slip underside. Colour graduations every 50cm. 8 carrying handles.

Ref.	Product description
30231	200 x 100 x 20 / 4 cm (dim folded 100 x 100 x 24 cm)
30230	400 x 200 x 30 / 4 cm (dim folded 200 x 200 x 34 cm)

5-STEP FOAM STAIRS

Ideal for learning long jump, to aim to jump higher and further. Sturdy and stable. Made of two elements connected by Velcro flaps reinforced by a buckle and strap system.

Ref.	Product description
30220	5-step foam stairs (3 x 1.50 m)

TAKE-OFF MAT

Specially designed for vertical or horizontal take-off training. Made from polyethylene foam. Foldable in 5.

Ref.
23900

SET OF 3 POLE VAULT MATS

Ref.
11107

VERTICAL TAKE-OFF POST

Post on base with ball to practice vertical take-off. Built on a heavy base for maximum safety. Ball height adjustable to requirements using halyard. Post height: 3m.

Ref.	Product description
23905	Vertical take-off post

CROSS MAT

For play. Made from polyurethane foam covered with a 1000 denier PVC cover, non-slip underside. (Phthalate-free covering.)

Ref.	Product description
23940	Cross Mat 150 x 150 x 1.5 cm

THROWING AREA

Easy to install and ideal for fun throwing practice. Throwing area in a 1,000 denier PVC fabric, in bright colours with metric measurements. Foam end edge to stop the equipment. Throwing circle with a circle mat secured to the throwing area using velcro strips. Dimensions: 8 x 5m

Ref.	Product description
11108	Dimensions : 8 x 5 m

SET OF TARGET HOOPS

Kit offering a host of combinations to develop motor skills and throwing proficiency. Comprising 3 hoops of 75cm diameter, 6 base blocks, 6 x 1.80m poles and 6 fixing clips.

Ref.	Product description
10190	Set of 3 target hoops

VERTICAL TARPULIN TARGET FOR THROWING - 130 X 130CM

With coloured circles and eyelets, can be hung vertically.

Ref	Product description
70098	Tarpaulin target

TARPULIN TARGET FOR THROWING EVENT LANDING AREA - 300 X 100CM

With colour coded zones for easier identification

Ref.	Product description

SPORTS EQUIPMENT

MANUFACTURER

WE MANUFACTURE OUR PRODUCTS IN OUR FACTORIES NEAR PARIS.

METALWORK

We cut, drill and weld the steel ourselves.
Every production stage is rigorously controlled.

MADE IN
OUR FACTORY
IN PARIS REGION

TARPAULINS

For almost 60 years, we have been constantly improving our processing methods to offer top-quality products.

Our suppliers
are firms with whom we have been working for many years and with whom we develop our products. We remain scrupulously attentive to their quality.

RAW MATERIALS

Our foams are of the highest quality and we know their composition.

Our canvases are inspected and certified.

We select our steels carefully and we know where they come from.

We require unremittingly high standards from our suppliers, because the quality of our raw materials largely guarantees the quality of our products.

RESPONSIBLE FOR PRODUCTION
TO FULFIL **YOUR SATISFACTION**
TOTAL COMMITMENT FROM DIMA

DIMA, INVENTOR OF SPORTS EQUIPMENT

CREATOR

CLOSE TO GRASS-ROOTS NEEDS, WE REMAIN ATTENTIVE TO YOUR REQUIREMENTS AND REGULARLY BRING OUT NEW PRODUCTS.

Steps with round edges at the request of trainers, starting sleds specifically designed to pass over starting blocks, solid and well-adjusted resistance training belts... the list goes on.

Because all sports require daily **physical training sessions**, Dima offers products that are perfectly suited to improving **flexibility, explosive power, core strength and footwork and speed**.

TRAINING / DRILLS

FLAT CONES

To define an area. Boundary cones made from hard rubber. Supplied with steel stand (for ref. 10496 and 10497) with shape allowing insertion of a rod. Assorted colours.

Ref.	Product description
10495	Set of 20 - Ø 20cm - height 5cm
10496	Set of 40 - Ø 20cm - height 5cm
10497	Set of 20 - Ø 30cm - height 20cm

TRANSPORTATION STRAP

To carry your flat cones easily.

Ref.	Product description
10498	Flat Cones carry strap

MULTI-FUNCTIONAL CONE HURDLES

Ideal for training for all types of sport. Each hurdle comprises one 1-metre rod and two 12-hole cones (37 or 50cm). Supplied with free storage bag.

Ref.	Product description
10415	Set of 3 - Adjustable height 7, 20, 32cm
10416	Set of 3 - Adjustable height 9, 24, 39cm

SOFT RUBBER CONES HEIGHT 18CM

For total safety.

Ref.	Product description
10480	Set of 12 Soft rubber Cones

MULTI-ACTIVITY PACK

Specially designed, our packs are scalable and offer basic equipment for training. Dima offers easy-to-use, adaptable and safe products.

Contents of a multi-activity pack:
2 x 37cm 12-hole cones - 2 x 100cm rods Ø 25mm - 1 x 120cm rod Ø 25mm - 1 pair of rotating clips for rods - 2 flat hoops Ø 60cm.

Ref.	Product description
10406	1 multi activity pack
10407	4 multi activity packs with free bag

MULTI-PURPOSE HOLED CONES WITH SLOTTED TOPS

Ideal for setting up your infant agility course. These multi-purpose marker cones have holes in which you can insert rods, and two slots in the top points to fit flat hoops, thus offering a wide range of combinations. Circular base, no sharp edges, for maximum safety.

Ref.	Product description
K5010	Set of 4 - 37cm - 4 colours
K5015	Set of 4 - 50cm - 4 colours

MULTI-FUNCTIONAL CONES HURDLES

20 cones + 10 x 1 meter rod with free storage bag.

Ref.	Product description
10403	Set of 10 - Height 5cm
10404	Set of 10 - Height 20cm

CROSS-BRACED HURDLES

Lightweight and easy to set up. Made of aluminium. PVC hurdle boards 100cm wide. Supplied with free storage bag.

Ref.	Product description
10239	Set of 6 cross-braces hurdles with bag
10239001	Hurdle board for cross-braced hurdle - sold by unit

FOLDABLE VARIABLE HEIGHT STEP HURDLES

Lightweight and easy to transport due to its flat folding system. Ideal for footwork and trackwork. In tubular PVC. 15 or 30cm height. Supplied with a free storage bag.

Ref.	Product description
10234	Set of 6 Hurdles with Storage Bag

GPP HURDLES

Perfect for beginners. Adjustable height from 20 to 30 cm.
PVC tube and joints. Can be fully dismantled. Lightweight. Width 60 cm.

Ref.	Product description
10333	Set of 3 - height 20-30 cm
10334	Set of 3 - height 40-60 cm

FOLDABLE HURDLE

Foldable and sturdy mat that transforms into a stable hurdle. Ideal for setting up various athletic workshops. Made of polyethylene foam. Non-slip bottom, leather grain top for better grip. 135x100 cm, 3 cm thick, and 52 cm in height.

Ref.	Product description
23947	per unit
23948	set of 3
23949	set of 6

STEP HURDLES

Lightweight and easy to transport. 45cm width. Ideal for footwork and trackwork. Supplied with a free storage bag.

Ref.	Product description
10232	Set of 6 - 15cm height
10233	Set of 6 - 30cm height
Step Hurdles Transportation Strap	
10237	Transportation Strap

FOLDABLE TRAINING HURDLE

Lightweight and easy to transport and install. PVC Hurdles. Ideal for indoor training.

Ref.	Product description
10323	Set of 10 - 20cm height
10324	Set of 10 - 30cm height
10325	Set of 10 - 40cm height
10326	Set of 10 - 50cm height

FOAM HURDLE

Stable and totally safe.

(Width: 100cm - Height: 40cm) Thickness: 7cm above and 25cm below.

Ref.	Product description
10340	Foam Hurdle

30CM CONES NUMBERED 5 TO 40

Numbered 5, 10, 15, 20, 25, 30, 35 and 40

Ref.	Product description
10486	Height 30cm - set of 8 cones

ADJUSTABLE GPP FOAM HURDLES

Easy to set up and carry. Perfect for travelling athletes.

Ref.	Product description
10339	Set of 5 hurdles

FOAM HURDLE MAT

Made from thick foam, this product provides total safety and eliminates any fears. Provided with end velcro strips, the assembly of these mats achieves a very flat surface (like a gym mat surface) for footwork, coordination, or gymnastic exercises.

Ref.	Product description
23936	Set of 4 folding hurdle mats 35cm. Dim. unfolded: 100 x 70 x 4cm
23941	Set of 4 folding hurdle mats 50cm. Dim. unfolded: 100 x 100 x 4cm
23946	Set of 4 folding hurdle mats 65cm. Dim. unfolded: 100 x 130 x 4cm

MINI OBSTACLES

Ideal for track work. Can be piled on top of one another. Polyurethane foam covered in a 1000 denier Tergal fabric. Supplied with a free storage bag.

Ref.	Product description
10345	Set of 8 Red Mini Obstacles 50 x 12 x 12cm
10346	Set of 8 Yellow Mini Obstacles 50 x 18 x 18cm

PVC CONES 17 OR 37CM

Ideal for your agility courses, dribble drills, attack and defence exercises, all-sports training sessions.

Ref.	Product description
10485	Set of 12 PVC Cones Height 17cm
10490	Set of 12 PVC Cones Height 37cm

TIPS

What to do with... STRIDE INDICATORS

Ref 10372

RUN ON A STRIDE TRACK (ST)

TO IMPROVE RUNNING SPEED BY
CONTROLLING A RANGE OF STRIDES

IN FAST STRIDES (FS) with stride frequency

IN POWERFUL STRIDES (PS), with stride distances.

Stride tracks (ST) are made up of stride indicators laid down at equal distances between which the runner may only touch down once!

1st touch point
for FS Fast Strides

1st touch point
for PS Powerful Strides

VARIATIONS

- 2 identical parallel lanes, with a head-to-head race with a similar athlete... BUT NO ERRORS ALLOWED!
- ST with change of rhythm: the change of stride indicator colour means the change of their distancing, meaning the athlete has to go from FS to PS, WITHOUT SLOWING DOWN!
- Establishment of Optima stride (OS) – the best compromise between FS and PS, and to be targeted by timing a 20m stretch from a flying start. This is also the best way of working out the last 4 or 6 strides before the take-off board (in long jump and triple jump).

	Fast strides FS	Optima strides OS	Powerful strides PS
10-12 years	0.80 m to 1.00 m	1.40 m to 1.55 m	1.60 m to 1.75 m
14-15 years	1.00 m to 1.20 m	1.50 m to 1.70 m	1.75 m to 2.00 m
17-18 years	1.40 m to 1.50 m	1.65 m to 1.85 m	1.90 m to 2.10 m
Top level, women	1.80 m to 2.00 m	2.10 m to 2.25 m	2.30 m to 2.45 m
Top level, men	2.10 m to 2.25 m	2.30 m to 2.45 m	2.50 m to 2.70 m

STRIDE INDICATOR

Made of anti-skid rubber. Marked both sides. Dimensions 50 x 5cm

Ref.	Product description
10372	Set of 20

FOOT SPEED LADDER

Length: 8.50 m. Width: 50cm. Possibility to join up several ladders using an attachment system. Adjustable spacing.

Supplied with a free storage bag.

Ref.	Product description
10377	8.5m Foot Speed Ladder

AGILITY LADDER

Allows for organisation of space and the programming of rhythm exercises. Flexible spacing. Very easy to position. Lightweight and easy to use. Possibility to form a circle. Made from anti-slip rubber. Rung lengths: 60cm. Supplied with free storage bag.

Ref.	Product description
10381	Agility Ladder

AGILITY HOOP LADDER

Ideal for varying lessons. Comprised of 8 x 60cm. rods, 12 x 60cm diameter round hoops and 12 clips.

Delivered with a free storage bag.

Ref.	Product description
K5206	Agility Hoop Ladder

HOOP LADDER

Comprised of 12 hoops Ø 50cm. Delivered with a free storage bag.

Ref.	Product description
K5205	12 Hoop Ladder with bag

MULTI-PURPOSE TRANSPORTATION CART

Ref.	Product description
10107	Multi-purpose transportation cart

TIPS

What to do with... STRIDE INDICATORS

Réf. 10372

CALCULATE YOUR MAXIMUM SPEED IN KM/H OVER 20M FLYING START

- The timekeeper must always stand on the same spot, perpendicular to the track and 20m away from it.
- The stopwatch is started (T0) and stopped (T) of the stopwatch happen when the torso passes through the start and finish gates respectively, made up of 2 vertical poles.
- Manual timekeeping is reliable and accurate without requiring expertise, whereas photo-electronic cells can produce erratic results due to being set off by limbs or not being adjusted to the body sizes of young people.
- **Track B**, free strides – **Track A** race on stride track for the calibration of a FS – OS – PS drill.

Several tips for and benefits from this exercise

- Start off gradually. It is pointless and tiring to get up to maximum speed before the start gate.
- Decelerate gradually after the finish gate.
- Games: pair up runners 2 by 2 according to times achieved so as to organise duels with well-matched opponents on 2 adjacent lanes with free or imposed stride patterns.

Calculate your flying start speed in km/h

- 20m with flying start in 3s equates to 24km/h.
- 20m with flying start in 2.50s equates to 29km/h.
- At top level, Jacques Piasenta has only trained three female athletes capable of running 20m in 2 seconds (36 km/h)! They could run 100m in under 11 seconds.
- Usain Bolt, when setting his 100m world record, ran from 60 to 80m in 1.61s, a speed of 44.72km/h.

TRAINING / DRILLS

MOBILITY COURSE EQUIPMENT

Ideal for setting up your mobility courses. Contents: 24 multi-game bricks, 12 top bricks, 4 flat hoops (40 – 50 – 60 – 70cm diameters), 8 x 100cm rods, 4 pairs of rod/flat hoop clips, 20 multi-game mini markers, 1 x 250cm. vinyl tape, 1 x 90 x 110cm storage bag – Assorted colours

Ref.	Product description
K5070	Course Equipment

FLOOR MARKINGS

Ideal for setting up your mobility courses. The various components, made of soft, thick and solid vinyl, adhere perfectly to the floor, delineating course zones, giving structure to playing areas and providing reference markers. Different colours: red, blue, green, yellow.

Ref.	Product description
K5085	10 round slabs, 10 square slabs, 10 triangular slabs

BRICKS

Ideal for setting up your mobility courses. These bricks can be stacked, clipped together and hold rods and flat hoops, offering a host of different combinations. Coarse surface to enable barefoot use.

Ref.	Product description
K5045	Set of 12 bricks
K5051	Set of 12 brick tops

SET OF 20 STRIPS + 12 ARROWS + 4 CORNERS + 12 CURVES

Ref.
K5090

SET OF 10 HANDS + 10 FEET

Ref.
K5095

VINYL TAPE

Usable indoors and outdoors to mark play and work areas. Can be cut to make stride indicators. Composition: In soft PVC. 4cm. width. Various colours.

Ref.	Product description
10373	Vinyl tape 10m
10374	Vinyl tape 20m

VESTS

Vests in light nylon fabric (numbered) with elastic side bands. Ideal for distinguishing teams during games. Measurements : 56 x 31 cm

Ref.	Product description
Hock650	Set of 12 (6 yellow + 6 red)
Hock651	Set of 12 (6 blue + 6 green)

FLAG BELTS

Ideal for team games. Belt adjustable with Velcro straps.

Ref.	Product description
K5056	Set of 5

METRIC TAPE

In unwoven fabric. Very light and easy to position. 17cm.wide. Markings every 20cm.

Ref.	Product description
10390	20m. tape
10395	50m. tape

VELCRO ELASTIC TAPE

Brightly-coloured tape for a range of activities. Can be used in place of a high jump crossbar, a goal crossbar, a tennis or badminton net. Elastic tape 5cm wide which can be extended from 3 to 5m.

Ref.	Product description
10580	Elastic tape with velcro

DIMASPORT

SPORTS EQUIPMENT

MANUFACTURER

WE MANUFACTURE OUR PRODUCTS IN OUR FACTORIES NEAR PARIS.

METALWORK

We cut, drill and weld the steel ourselves.
Every production stage is rigorously controlled.

MADE IN
OUR FACTORY
IN PARIS REGION

TARPAULINS

For almost 60 years, we have been constantly improving our processing methods to offer top-quality products.

Our suppliers
are firms with whom we have been working for many years and with whom we develop our products. We remain scrupulously attentive to their quality.

RAW MATERIALS

Our foams are of the highest quality and we know their composition.

Our canvases are inspected and certified.

We select our steels carefully and we know where they come from.

We require unremittingly high standards from our suppliers, because the quality of our raw materials largely guarantees the quality of our products.

70012	Size XL

RESISTANCE BELT WITH HANDLE

Comprising a resistance training belt and 6 metres of elastic resistance cord. Two handles fixed at one end to allow the trainer to hold back the athlete.

Ref.	Product description
70036	Resistance belt

JUMPING RESISTANCE BELT

Supplied with a belt and two elastic resistance cords fitted with specially-designed ends for guaranteed support.

Ref.	Product description
70037	Jumping resistance belt

RESISTANCE CORD WITH HANDLES

Elastic tube with 2 handles for easy handling. Length: 80cm

Ref.	Product description
70035	Resistance cord with handles

ELASTIBAND

Versatile. The Elastiband can be used on each of the main muscle groups (arms, back, glutes, pecs, thighs, abs, etc.). Anti-tear and non-deforming. 39% elastodiene, 35%polyester, 26% polyamide. Washable at 30°C maximum. Can be used in aquagym activities. Fitted with handles for hands/feet.

Ref.	Product description
70048	Elastiband – resistance: 10 kg
70050	Elastiband – resistance: 15 kg
70049	Elastiband – resistance: 20 kg

STAND FOR EXERCISE BALL

For greater stability and safety, made from polypropylene, diameter 50cm

Ref.	Product description
10365	Exercise ball stand

EXERCISE BALL

Inflatable ball in solid PVC. Can support weights of 300kg and has a "warmer", and therefore more pleasant, handling surface

Ref.	Product description
10367	Ball diam 55 cm
10366	Ball diam 65 cm
10368	Ball diam 75 cm

BANDS - RESISTANCE

Ref.	Product description
FIT03880	10 kg - Red
FIT03881	20 kg - Black
FIT03882	30 kg - Purple
FIT03883	50 kg - Green

BATTLE ROPE

Conditioning Ropes is the perfect cross training accessory to work on athlete's conditioning and is an excellent developer of grip strength. Power rope training is efficient to increase power and explosiveness.

Ref.	Product description
FIT03602	Length 9M - Diameter 38mm

FITNESS CUSHION PAD

The fitness cushion pad is perfect for mobility exercises, it encourages better posture and help to increase stability and balance.

Ref.	Product description
FIT03830	Fitness cushion pad Diameter 33cm

BOSU BALANCE TRAINER

This product is perfect to work on training balance, enhancing flexibility & delivering effective cardio workouts Delivered with a pump.

Ref.	Product description
FIT03850	Diameter 58cm

FOAM ROLLER

The foam roller can help your body to warm up and speed up recovery.

Ref.	Product description
FIT03862	Black Foam Roller Length 33 cm, diameter 13 cm
FIT03860	Red Foam Roller Length 33 cm, diameter 13 cm
FIT03863	Purple Foam Roller Length 33cm, diameter 13cm

MASSAGE STICK

The muscle roller stick reduce stiffness and pain before and after workouts.

Ref.	Product description
FIT03861	Massage stick - Length 44cm, Diameter 3cm

GPP STACKING BENCHES

Set of 4 GPP (General Physical Preparation) stackable benches for plyometric workouts. Steel legs and base, non-slip wooden surface 15mm thick (synthetic optional). Measurements (Length x width x height) : 1 bench 89 x 64 x 60cm, 1 bench 81 x 56 x 50 cm, 1 bench 73 x 48 x 40cm and 1 bench 65 x 40 x 30cm

Ref.	Product description
10777	Set of 4 GPP Stacking benches

STANDARD GPP BENCHES

Standard GPP (General Physical Preparation) Benches available in different heights. Steel base, non-slip wooden surface (synthetic optional). Dimensions (Length x width) 80 x 55cm.

LANDING EQUIPMENT FOR CLIMBING WALLS

This standard applies to landing equipment for climbing on artificial climbing structures such as walls and boulders where the height of the highest hold does not exceed 4.10m above the landing area.

The fall zone must correspond to the projection of the overhanging climbing wall on the ground, increased by 2.50m minimum in all possible fall directions (see drawing).

DIMA CLIMBING CRASH PADS

This range of crash pads made from dual density foam for stable landing, has been designed specifically for safe climbing activities, guaranteeing a proper and safe landing. All our crash pads can be transported in three ways: with a shoulder strap, handles or adjustable rucksack straps.

Ref.	Product description
CRASH001	100 X 100 X 10cm dual density
CRASH002	130 X 100 X 12 dual density reversible

The CRASH002 model is reversible and can be used on the hard or soft side according to requirements, and is fitted with removable carry straps.

MAT FOR DIFFICULTY TYPE CLIMBING WALL THICKNESS 5 OR 10 CM

ROPED CLIMBING MATS - 5CM THICK

- These top-rope mats are specifically recommended for artificial climbing structures, in which climbers clip in with a rope and harness attached to an anchor belay.
- Our mats are made from dense polyethylene foam for a safe landing area for climbers. All mats can be joined and stabilised together using 20cm wide detachable self-gripping flaps on the upper side, offering a safe and uniform landing surface.
- Specifically designed for intensive use, our mats covers are washable.
- Made from a flame retardant, Phtalate-free, 1000 denier Tergal cover with leather grain top side and non-slip underside

Ref.	Product description
23019	250 x 100 x 5 cm
23018	250 x 150 x 5 cm
23012	250 x 200 x 5 cm
23016	250 x 250 x 5 cm
23013	250 x 300 x 5 cm
23220	Standard custom-made - Thickness 5 cm
23017	Specific shape - sold by sqm.

ROPED CLIMBING MATS - 10CM THICK

- 7cm of soft polyurethane foam for more cushioning, covered by a 3cm layer of dense polyethylene foam for a safe landing.
- Made from a flame retardant, Phtalate-free, 1000 denier Tergal cover with leather grain top side and non-slip underside.
- Zip fastening on three sides.
- Non-tear handles.

Ref.	Product description
23021	250 x 100 x 10 cm
23005	250 x 150 x 10 cm
23006	250 x 200 x 10 cm
23009	250 x 250 x 10 cm
23007	250 x 300 x 10 cm
23027	Standard custom-made - Thickness 10 cm
23004	Specific shape - sold by sqm.

REMINDER OF LANDING AREA SIZE REQUIREMENTS

To map out a landing area:

- Draw a horizontal line on the structure (including its edges and sides) 3m above the ground
- Define the vertical projection from this line on the ground.

The landing area must stretch at least 2.50m beyond this line, and in all possible fall directions (see drawing) notably to prevent head contact with the ground.

FINISHES AND COLORS ON REQUEST

The DIMASPORT team is at your disposal to help you deliver your projects to your own requirements.

CHOICE OF COVER COLOURS

We offer you a wide range of colours to help you to harmoniously incorporate your future protection pads into your premises. Colours can be chosen from the palette below.

CHOICE OF KID COVER COLOURS

DIMA MANUFACTURER

We make your protectors to your measurements, (specific shapes, etc.). Do not hesitate to ask us.

PILLAR PROTECTORS

- Measurements of each side of the pillar, specifying the number of faces to be protected
- Height of the protector to be supplied
- If the pillar is round, the diameter or circumference of the pillar.

WALL PADS

- Width + height of protectors
- Sizes and locations of any cut-out shapes to be included, where relevant.

INDOOR AND OUTDOOR WALL PADS

WALL PADS

Essential for protecting risk areas, these protective pads contribute to a safer sports environment. Made from dense polyethylene foam, covered with a PVC M2 fireproof phthalate-free canvas. Fix to wall with Velcro. Choice of colours.

STANDARD CANVAS WALL PADS

Ref.	Product description
23800012	200 x 100 x 4cm panel
23800010	4cm thick pad with specific shapes – sold by sqm

KID CANVAS WALL PAD

Choice of colours.

(Add at the end of the reference 01 for Pistachio green, 02 for Wheat yellow, 03 for Apricot Orange, 04 for purple, 05 for Raspberry).

Ref.	Product description
KB1606	100 x 100 x 4 cm panel
KB1607	200 x 100 x 4 cm panel
KB1651	4 cm thick pad with specific shapes – sold by sqm

SAFETY RULES

In a dojo, when there is less than 1m between the wall and the edge of the tatami, it is compulsory to fit the walls with protective pads.

CORNILLEAU SPORT 100 INDOOR TENNIS TABLE

Approved by the FFTT (French Table Tennis Association) for leisure use.

For its entry-level product, Cornilleau offers an ideal table for family games. The SPORT 100 INDOOR Table is perfectly suited for playing table tennis at home. Designed for leisure use, its optimized COMPACT TECHNOLOGY storage system makes it very easy to use. This table is truly a friend of the family. 3 years guarantee (except wheels, posts and net)

Ref.	Product description
TT400	Table Sport 100 Indoor

CORNILLEAU SPORT 100S CROSSOVER OUTDOOR TENNIS TABLE

Approved by the FFTT (French Table Tennis Association) for leisure use.

The Sport 100S crossover table too withstands bad weather thanks to its anti-corrosion treatment. Added to that its solid laminate tabletop can roll with the punches, while its lightweight qualities combined with its large wheels make it much easier to manoeuvre. The 100S Crossover, reliability in its simplicity.

Ref.	Product description
TT401	Table Sport 100S Crossover Outdoor

PRO 540 OUTDOOR TABLE

Table for outdoor use and educational use

FFTT approved for leisure

The PRO 540 OUTDOOR table is a very tough outdoor table that responds perfectly to the needs of institutions such as campsites, resorts, hotels, etc. Equipped with wide wheels, it is very easy to manoeuvre on any type of ground. Just as high performance for play, Cornilleau's Outdoor tabletops with MATTOP surface have the advantage that they're weather and shock resistant so they're ultradurable. This top of the range table will suit the highest demands.

Ref.	Product description
TT540	Table pro 540 outdoor

CORNILLEAU PRO 510 OUTDOOR TENNIS TABLE

Ideal for institutions.

The curved legs of the PRO 510 OUTDOOR tennis table make it the most attractive of outdoor tables. Its design allows it to fit in perfectly in the environment of a campsite, a park, a resort or a hotel. Designed to be fixed to the ground, it comes equipped with adjustable screw fittings. It can be installed in public places without risk of losing its parts: its permanent Leg Assembly net cannot be removed. The table can be used in all circumstances and fears neither blows nor bad weather. Its toughness makes it an all-terrain table.
